The exact date of the debates has not yet been set, but it is the intention to have the series early in April.

FORMALLY DECLARE BOND ISSUE CARRIED

Commissioners Decide Bonds Shall Be Sold in Segments to Provide Funds as Needed.

A resolution declaring the \$900,000 issue of water and sewer bonds to have been duly and properly authorized at the special election held last Wednesday was passed by the city commission last night. The city attorney will now prepare the necessary papers incident to the advertising and selling of the honds.

It is proposed to sell the bonds in segments, so as to provide the money as needed from time to time to carry on the work contemplated under the issue. The first allotment probably will be sold within the next month or six weeks.

At the meeting yesterday morning the commission canvassed the ballots cast at the election and found the totals to be the same as those published the morning after the election, to wit, 1169 for and 421 against the water bonds and 1069 for and 390 against the sewer bonds.

DEPORTED LEADERS REACH GRAVESEND Try This Free Prescription

They First Refuse to Leave Steamship, but Later Reconsider Action.

GRAVESEND, England, Feb. 24.-The en labor leaders deported from South Africa last month, after the general strike had been broken, landed here today from the steamship Umgeni. The men, after refusing to leave the vessel, revoked their decision, however, after a long conference with British leaders, who had arranged a great welcome for them. Mr. Bain, general secretary of the

trades federation of South Africa, acting as spokesman for his fellow exiles, said 'We were pressed onto the vessel against our consent. We do not intend to leave it until we land again in South

Africa."

Arthur Henderson, a labor member of parliament, and other British labor leaders went to meet the deported strike leaders, but the captain refused to allow any to come on board. The South Africans and Englishmen contented themselves for the time being with singing. "The Flag." Secretary Bain handed over the side of the ship to Arthur Henderson a statement recounting events which had led up to the strike leaders deportation from South Africa. It declared that hundreds of people had been arrested during the strike for no crime whatever. The leaders of the movement, it asserted, surrendered in order to avert bloodshed when a military officer had threatened to attack the trades hall in Johannesburg.

bloodshed when a military officer hast threatened to attack the trades hall in Johannesburg.

Refusal of the men to leave the vessel on her arrival had not been anticipated here. The labor members of parliament had arranged a complimentary dinner in the dining rooms of the house of commons and demonstrations at the operations and in Hyde park.

The vessel proceeded up the Thames to one of the London docks before any further steps were taken in connection with the landing of the men.

The general sirks of all trades it. South Africa was declared on January 13. Premier Botha's government responded with a proclamation of nurtial law calling 100,000 men to the front.

There was some disorder in Johannesburg and Pretoria, but after a few days the strike collapsed. On January 27, the leaders of the movement were taken secretly on board the steamer Umgen; for transportation to England.

More than two-thirds of the people of the world are afflicted with tainted blood, according to medical statistics. Some have acquired it through disease, but most have inherited it. This is an alarming state of affairs, Did it ever occur to you that you may be among that great majority who have impure blood?

You MAY TREAT FOREVER with medicines directed to the relief of your symptoms, but unless your blood is first made pure the medicines will all fail. You have intelligence enough to agree with me in this. REMEMBER THIS: Nothing can be cured unless the blood stream which carries all nutrition to the organs is pure. I put the blood in perfect condition and nature does the rest.

THE NEW SCIENTIFIC METHOD.

METHOD.

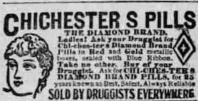

I have a Salvarsen Equipment from which 250 to 200 cubic centimeters (little less than a quart) is poured directly into the heart: from there it is sent through every artery and vein. I will demonstrate to you how you may be cured if you have an affliction that will not yield to ordinary treatment.

I keep up with the latest scientific methods and apply them in my work; you can get the best for the same price you will pay for cheap work. Careful attention to study and work has enabled me to occupy for many years the position of leading specialist in men's diseases. A call costs nothing, proves everything. In a word, I cure private disorders of every form. If you desire a cure, come to me.
